Safety Precautions

Before using the HD MediaHub+ please ensure you read and understand all the safety precautions below:

- Do not attempt to open the unit or modify it in any way, as this will void your warranty. Maintenance and repairs should only be performed by Kaiser Baas.
- Keep the HD MediaHub+ away from water and other liquids. Do not use wet hands when using the HD MediaHub+ as this may cause the unit to malfunction.
- Keep the HD MediaHub+ away from direct sunlight and heat sources.
- HD MediaHub+ may become slightly warm during use, this does not indicate malfunction.
- Do not place heavy objects on the HD MediaHub+, as this may cause it to malfunction.
- Do not dispose of the unit via conventional domestic waste.
- Use the supplied power adapter; do not substitute for another adapter.

Setting up the HD MediaHub⁺

Steps to Connect:

1

Connecting HDMI cable

- Connect one end of cable to the back of TV
- Connect the other end to the 'HDMI' port in HD Media Hub⁺

2

Connecting Power cord

- Connect the cord to 'Power socket' of HD MediaHub⁺
- Connect the wall plug to a power outlet

3

Connecting External storage device

- Connect your external HDD to a 'USB' port in the HD MediaHub+
- Turn on HDD (if required by the HDD)

4

Turn HD MediaHub+ on

- Turn power on at power outlet
- Press 'ON/OFF button' in front of unit

Note: Alternatively use Remote control to turn on HD MediaHub+. When using Remote control point control directly at unit's 'IR receiver'. Batteries must be inserted into Remote control before using.

- 'Power indicator' light will turn blue

5

Turn on TV

- Select the proper HDMI source on your TV.

Note: If there is no HDMI input on TV, you may need to use AV or component cables and select appropriate TV input source on TV depends on your connection (these cables are not provided).

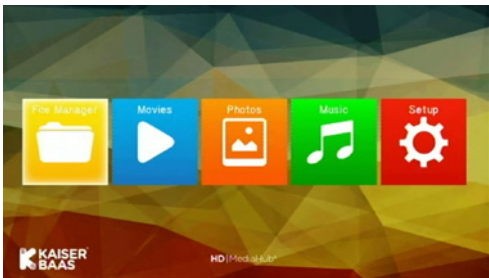

- Wait a few seconds for your TV to recognise the media hub plus. If it is not detected you may need to check the cables, connections, input source on TV.
- Device will boot up and Home Screen will appear with the following options:
 - File Manager
 - Movies
 - Photos
 - Music
 - Setup

Home Screen

The home screen is the first screen of information displayed when the HD MediaHub⁺ is started. The home screen can also be accessed at any time by pressing the HOME BUTTON (🏠) on the remote control.

Home Screen Options

The icons on this screen let you browse the media library and configure the media Player's settings.

Home Screen Screenshot

Note: Use the arrow keys to navigate through menus and OK button to confirm selection.

1. File Manager

The file manager allows you to browse and access the media files stored on the external storage device.

Navigation: Use the arrow keys to navigate and OK button to confirm selection/open file.

File Manager Screenshot

1.1. Accessing files through File Manager

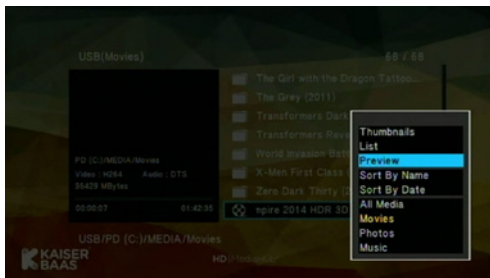

Go to File Manager from home screen.

Press OK to Select the External Storage Medium (USB or SD/MMC) and choose your storage device.

Note: It may take up to 5 minutes to scan and list your hard drives. If you do not see any devices, turn unit off and on again then repeat selection.

Folder view options

Press the Menu button to display the following submenu. This menu is also available from the Movie library, Photo library and Music library.

Folder View Options Screenshot

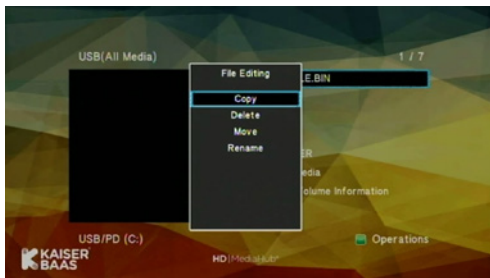

Note: This menu cannot be accessed while playing movies.

MISC

Use this menu to adjust miscellaneous settings.

Misc Settings Screenshot

- USB upgrade
 - Select to update the firmware via a USB stick

Download the firmware from Kaiser baas website, copy firmware file to the root directory of a USB stick, and connect it to the USB HOST port of the player. Go to USB upgrade option from the 'Misc' settings menu and Press OK to confirm.

Alternatively, there is firmware upgrade button inside the Yellow AV output (Composite) socket on the back of the unit.

To update the firmware this way:

1. Turn the Media Hub Off
2. Insert the USB stick containing firmware to USB port
3. Insert a non-metal pin into Yellow AV output (Composite) socket

4. Press and hold the reset button and continue holding while turning the HD MediaHub+ on
 5. Once firmware installation starts release reset button
- Key Tone Volume
 - Select to set the Key Tone Volume on/off
 - Factory Default
 - Select to restore factory defaults.

Frequently Asked Questions

General tips to help you enjoy the HD MediaHub⁺

Q. I cannot turn my unit on?

- A1. Check that you have turned it on at the power outlet.
- A2. As an alternative use the remote control "POWER" button to turn the unit ON/OFF.

Q. I cannot see my HDD?

- A. It may take up to 5 minutes for the HD MediaHub⁺ to scan your HDD and list it under the library. If that doesn't work, turn the unit OFF, wait 5 seconds and turn it back on.

Q. Can I plug in my HDD when the unit is on?

- A. Yes.

Q. The movie does not fill up my TV screen?

- A. Check the Aspect Ratio setting is consistent with your TV. Go to Home Screen, Set up, Video and select Aspect Ratio that fits your TV

Q. There is no picture on my TV?

- A1. Check TV and HD MediaHub⁺ are both on.
- A2. Ensure the Source selection on your TV is correct.
- A3. Make sure all your cables are plugged in securely.

Q. My unit is getting warm?

- A. The unit will be slightly warm when operating normally.
